PROJECTS

Online Shop Web App

- React | Next | Tailwind CSS
- Product list saving function, filtering, and clearing.
- Mobile-friendly design and reusable components.

Admin Panel

- React | Tailwind CSS | Custom Hooks
- A clone that is very convenient for teachers of the training center. A site with a great design for adding students, teachers and courses

SKILLS

Type Script, Next Js, Tailwind CSS, UI Library, Vite Js, JavaScript, Sass

LANGUAGES

ENGLISH **Advanced** ● ● ● ● ●

RUSSIAN **Native** ● ● ● ● ●

KEY ACHIEVEMENTS

● Outstanding Frontend Performance Improvement

Achieved a 25% reduction in UI load time by optimizing React components and improving rendering logic, significantly enhancing overall application responsiveness.

● Emerging Team Contributor

Acknowledged for showing strong initiative and teamwork while assisting in the development and deployment of a frontend project using React and Tailwind CSS.

● User Experience Improvement Initiative

Helped design and implement an intuitive interface in a React project, which contributed to increased user satisfaction and improved return visits.

● Commended for Technical Support Contribution

Assisted in resolving frontend bugs and user interface issues, contributing to overall customer satisfaction and smooth product delivery.
